MADE IN SLIDE

In tanti campi d'eccellenza dell'industria italiana, la denominazione *Made in Italy* conferisce un valore positivo riconosciuto in tutto il mondo per la storia, la cultura, il gusto e la qualità, che sono indiscutibilmente punti di forza del nostro Paese.
SLIDE rafforza questa identità italiana con la denominazione *Made in Slide*, mantenendo all'interno dell'azienda tutte le lavorazioni che portano alla realizzazione dei prodotti: ingegnerizzazione, stampaggio, finitura, assemblaggio e laccatura, tutto viene rigorosamente realizzato negli stabilimenti di Buccinasco, alle porte di Milano.
La gran parte dei prodotti SLIDE è realizzata in polietilene riciclabile mediante la tecnologia dello stampaggio rotazionale. Da quest'anno tuttavia la produzione si allarga per garantire un'offerta sempre più competitiva e rispondere alle sollecitazioni del mercato: nuovi materiali (polipropilene, poliuretano e HPL) si affiancano a nuovi processi produttivi (stampaggio a iniezione e a schiuma poliuretanica). I prodotti SLIDE trovano sempre il giusto collocamento, negli spazi residenziali, negli esterni, negli eventi o nel mondo del contract, rompendo gli schemi di ogni ambiente tradizionale.

In many fields of excellence in the Italian industry, the denomination *Made in Italy* gives a positive value recognised worldwide for history, culture, taste and quality, that are unquestionably our country's fortes.
SLIDE strengthens the Italian identity with the denomination *Made in Slide*, by maintaining inside the company all the processing that brings to the realisation of our products: engineering, moulding, finishing, assembling and lacquering. Everything is manufactured in the Buccinasco premises, at the gates of Milan.
Most SLIDE products are made of recyclable polyethylene by means of rotational moulding. This year, however, SLIDE's offer broadens to introduce new materials (HPL, polyurethane, polypropylene) and production processes (injection moulding, polyurethane foam moulding), striving to ensure a most competitive product range and to answer the market demands. Either in residential or outdoor spaces, in events or in the contract world, a SLIDE product always finds its placement, breaking the schemes of any traditional space.

Dans de nombreux domaines d'excellence de l'industrie italienne, l'appellation *Made in Italy* confère une valeur positive, reconnue à travers le monde pour l'histoire, la culture, le goût et la qualité, qui sont sans aucun doute les points forts de notre pays.
Chez SLIDE, nous renforçons cette identité italienne avec la dénomination *Made in Slide*, en gardant au sein de l'entreprise tous les processus de production qui conduisent à la création de nos produits: concept créatif, moulage, finition, laquage, tout est rigoureusement réalisé dans nos usines de Buccinasco, aux portes de Milan.
La plupart des produits sont réalisés en polyéthylène recyclable par rotomoulage. Cette année, cependant, la production s'élargit pour offrir une gamme de plus en plus compétitive et répondre aux demandes du marché: de nouveaux matériaux (polypropylène, polyuréthane et HPL) pour de nouveaux systémes de production (moulage par injection et mousse de polyuréthane). Un produit SLIDE trouve toujours sa juste position, dans le monde résidentiel, l'ameublement extérieur, dans les projets ou dans l'évènementiel, brisant les schémas traditionnels de n'importe quel habitat.

PRODUCT FEATURES

Material: Linear low-density polyethylene - LLDPE
Production process: Rotational moulding
Resistant to extreme temperatures: -60°C to +80°C
(If equipped with bulb -20°C to +60°C / with LED 0°C to +50°C)
UV resistant (except lighting colours)
High tensile strength

All our products are 100% recyclable. Furthermore, matt grey, black and chocolate colours are produced with recycled polyethylene. SLIDE has a closed production cycle with no health prejudicial emissions and complying with ecologiacl sustainability rules.

SYMBOLS

Technical data available at the mentioned page.

Class 1: appliance fitted with basic insulation throughout and with accessible live parts connected to a supplementary safety circuit (ground).

Class 2: appliance fitted with double insulation or reinforced with insulation without ground connection.

Class 3: appliance protected against electrical shock, powered by a battery or a transformer.

Certifies the conformity of the product to the European Community instructions.

The upper part of the appliance may come into contact with normally inflammable surfaces.
If this symbol is not shown, the upper part of the appliance must be installed not less than 25 mm from any normally inflammable material.

Lamps with this symbol are only suitable for indoor use.

Lamps with this symbol are suitable for indoor and outdoor use.

Lamps with this symbol are suitable for floating.

Product of the new collection.

Product compatible with Candy Light LED RGB - LP RGB100 (reference page 209).

N.B. All the wattages reported in the catalogue are recommended
All IP20 items are equipped with a transparent electrical cable
All IP55 items are equipped with a black electrical cable

WARNING

Keep away from excessive heat sources.
Avoid any improper use. Do not stand on the products. When the product has to be moved, lift the product off the ground in order to avoid damage.
Do not overload the pot structure in order to avoid deforming.
Carefully comply with the maintenance & cleaning instructions.
In case of malfunctioning or damage of the wiring or any electrical parts, refer to a qualified electrician.

MAINTENANCE & CLEANING

To prevent dust and dirt from sticking to the plastic surfaces, periodically clean the product with a damp cloth and neutral liquid soap diluted in water.
Avoid using ethanol or any liquids containing, even in small amounts, acetone, trichloroethylene or ammonia (solvents in general).
It is recommended the use of SLIDE's "CleanUp" cleaner or a degreaser. In case of persistent stains, use a scrub eraser (melamine foam - Scotch-Brite® Easy Eraser or similar) or a high pressure washer.
Spray the cleaning product on the surface, rub with a damp cloth and rinse abundantly with water (preferably with a high pressure washer).
The lacquered version is suitable also for outdoor use, however it is more sensitive to scratches: periodically clean with a polish cleaner, gently rubbing with soft cloth/cotton wool.
Cushions can be cleaned with a damp cloth, neutral liquid soap and water.
For metal parts use specific cleaners.

NEW	**SD CLE001** **CLEAN UP**	Detergent with high cleaning power recommended to clean SLIDE products (standard and lighting versions)

WARRANTY

SLIDE products are guaranteed against all manufacturing faults, granted that the items are appropriately used, for twenty-four (24) months from the date of purchase upon presentation of the invoice.
LED KITS only are guaranteed for twelve (12) months from the date of purchase.
Warranty doesn't include parts that are subject to wear and tear due to usage, batteries when provided, wiring and electrical parts that do not have manufacturing faults.
